

Accessibility Statement

This document concerns the website

<https://www.villaserenaliguria.it>

The website owner is committed to making its website accessible, in accordance with Law no. 4 of January 9, 2004 and the Guidelines on the accessibility of IT tools defined by AgID, as well as international WCAG standards.

Compliance status

The website is partially compliant with the requirements of UNI CEI EN 301549 and WCAG 2.1 level AA.

The analysis carried out using the MAUVE++ tool shows an accessibility level of 92%, indicating good overall compliance and adequate usability of content for most users.

Some graphical and design adjustments have been implemented to ensure a consistent and pleasant visual experience. These aspects can be further optimized and customized by the user through the accessibility tools provided.

Improvement actions

To improve user experience and accessibility, the Accedly module has been integrated, allowing the interface to adapt to different user needs, overcoming potential limitations and facilitating navigation and content use.

The website is regularly updated and progressively aligned with evolving accessibility regulations.

Evaluation methodology

Automated analysis with MAUVE++

Manual checks and visual testing

Checks with accessibility support tools
